

What is the impact of a rich, inquiry-based learning environment on our students' abilities to make their thinking visible through STEAM?

To what degree, will my increased awareness and training in STEAM (Science, Technology, Engineering, Arts & Math) impact my instructional practice, particularly in science?

Renfrew County Catholic District School Board

Renfrew County Catholic District School Board

What Was Our Process...

★ Who was involved?

- Five elementary teachers in our board.

★ Steps to Our Inquiry...

- Attend Orientation in Kingston (January 2016)
- Met in February 2016 as the MISA Teacher Team to finalize our question and discuss what our goal was.
- Each teacher was released for a half a day of STEAM training.
- Each teacher documented their learning journey through a personal reflection, pictures and video of how they put STEAM into practice in their classrooms.
- TCI Symposium (Kanata- May 2016)
